ELECTRIC
FORKLIFT

THE TOYOTA CORE ELECTRIC FORKLIFT. It's big on small space productivity. Carrying up to 6500 pounds. Lifting as high as 23 feet. Unloading more pallets at once in confined aisles. Clean, quiet AC power reduces emission worries, making the Core Electric a top choice for sensitive food and beverage applications, plus many other inside jobs. When the going gets tight, it gets going.

CORE ELECTRIC ADVANTAGES

- ▶ **SYSTEM OF ACTIVE STABILITY™ (SAS)**, unique to Toyota forklifts, helps prevent tip-overs
- ▶ **ACTIVE MAST CONTROL** responds automatically to enhance stability of loads handled at high lift heights
- ▶ **FORWARD TILT ANGLE CONTROL & REAR TILT SPEED CONTROL** act automatically in uncertain situations to protect operator, and reduce product and forklift damage
- ▶ **ONE-WAY AUTOMATIC FORK LEVELING** levels forks parallel to the ground from back tilt position with the push of a button
- ▶ **TWO-WAY AUTOMATIC FORK LEVELING**, on mini-lever and joystick control options, levels forks from back tilt and forward tilt positions
- ▶ **REGENERATIVE BRAKING** improves overall efficiency and prolongs brake component life
- ▶ **PROGRAMMABLE PERFORMANCE PARAMETERS** are customizable via digital display to fit a variety of job applications and operator skill levels

MORE COMFORT = GREATER PRODUCTIVITY

It's a winning equation. And the driving force behind the Core Electric's operator compartment — a space designed to maximize productivity, comfortably. With intuitive controls. Power steering for smooth responsiveness, plus vibration dampening for reduced operator fatigue. A memory tilt steering column and seat travel adjustability to accommodate operators of all sizes. And a heavy-duty non-slip floor mat to minimize noise, heat and vibration. All so you can do more, more comfortably.

FRIENDLIER TO THE ENVIRONMENT — & SPECIFIC APPLICATIONS

Clean AC power. It's quietly efficient and environmentally friendly. Plus it gives you access to applications often unsuitable for IC forklifts. Including food, beverage and indoor environments with limited ventilation. And with up to 21 percent faster travel speeds, up to 85 fmp lift speed and three forms of energy regeneration — including regenerative brakes — you won't have to pay a performance penalty for that access.

STABILITY: NOW AN ACTION VERB

When operators find themselves in uncertain situations, Toyota's System of Active Stability springs into action.

Active Control Rear Stabilizer instantly responds to a turn taken too fast by widening the forklift's center of gravity to decrease the likelihood of a lateral tip-over.

Active Mast Function Controller automatically overrides operator actions that could cause the forklift to tip forward or backward. Forward tilt control senses unstable load weight and mast height, then acts to limit forward tilt. Rear tilt control slows tilt speed to half, decreasing the chances of spilling unsecured loads or tipping up.

AN INVESTMENT THAT PAYS YOU BACK

Some competitors are content to design a forklift and build it out with systems bought off the shelf. Toyota demands better for its customers. The Core Electric, like all Toyota forklifts, is engineered from the ground up as a finished product. One with better components and well-thought-out integrated systems that work together to deliver intuitive, dependable performance day after day. Toyota forklifts don't require a lot of service. But when they do need service, it's fast and easy — by design. And legendary Toyota quality means more productivity over the lifecycle of your forklift, along with lower repair costs. Higher residual value is another bonus.

ALL-AROUND INDOOR PERFORMER

The Toyota Core Electric Forklift blends powerful lifting capabilities and nimble narrow-aisle navigability with the environmental and sustainability advantages of clean electric power. It gives you access to specialized indoor applications. And it delivers the muscle you need to get more done, in one compact, versatile forklift. Best of all, it's a Toyota — proven the most dependable, reliable and safe line of forklifts you can buy.
