

## NY's Fastest Growing Logistics Company Prefers JIT Toyota-Lift

**Sonwil relies on us for all their warehouse equipment, service, and parts needs**

*One of the largest third party logistics, distribution, and supply chain providers in the United States and Canada., Sonwil has been working with JIT for over 20 years. We talked with Brian Pulaski, General Manager of Sonwil Distribution Center to find out what he likes about working with us.*

"I've been with Sonwil for 27 years and have worked with JIT Toyota-Lift for pretty much my entire career here. I can tell you that we've never wanted to work with anyone else. Any time we've needed forklifts, pickers, or sweeper scrubbers, we always go to them."

—Brian Pulaski, General Manager, Sonwil

## JIT Saves You Time and Money

**By ensuring you have the best equipment possible**

"When we order fork trucks, JIT knows the way we set them up is different than most warehouses. We use pick index, and we use four way hydraulics. So when our equipment comes in, their team gets everything up and running the right way before it even hits our floor."

## Keep Your Equipment Working

**Our technicians have unmatched experience and knowledge**

"They get it right the first time around. They're professional, clean, safe, and reliable. I can call JIT if I have an emergency, and they will be out within an hour to an hour and a half every time."

## Eliminate Down-time

**Rely on our large rental fleet**

"In the last three months, we have had several fork trucks go down. Whenever that happens, JIT will always find us a rental, so it doesn't shut down our business."
