

## Why a Leading Global Nutrition Company Relies on JIT

**We deliver top notch equipment and service to lovate**

"I've been working at lovate for six years, and we've been using JIT for 17 or 18 years. We have purchased 45 pieces of material handling equipment from them for our operations."

"The biggest thing for us is the service. If we have issues, they'll come out either same day or next day. For example, we use wrappers to wrap our pallets, and recently we had a wrapper go down during an extremely busy time for us. I contacted the service line, and they were closed. I put a 911 call out and within a half hour I got a phone call back from JIT. They reached out to their service tech, Lee, who finished his dinner and was here within 30 to 45 minutes after eating his supper. The wrapper was repaired. We have a lot of stories like that. They come out whenever we need them."

—**Pete Wilson**, General Manager of Operations at lovate Health Sciences
