

YOU'RE INVITED!

JIT IS CELEBRATING
40 YEARS IN BUSINESS

Join us on June 22 for our 40th Anniversary Celebration Open House. We'll have food trucks, ice cream, and plenty of surprises. You can take a behind-the-scenes look at our service center, see several innovative new products, and meet our entire JIT team.

Rain or shine!

When: June 22 from 11:00 am – 3:00 pm
Where: 25 Boxwood Ln. Cheektowaga, NY

Help Prevent Accidents in Your Warehouse

With Toyota's SEnS Smart Environment Sensor system

The SEnS system assists forklift operators in identifying pedestrians or objects behind their machine. It alerts them to the presence of obstacles up to 32' away using warning lights and buzzer sounds that increase in intensity as the objects get closer.

Best Practices

Warehouse Rack Safety Tips

Layout is critical

An important part of warehouse safety is to ensure the aisles are wide enough for navigating your forklifts and other machinery. It can be tempting to make your warehouse aisle as narrow as possible in order to fit more product in the facility, but if they are too narrow, you won't be able to move pallets efficiently.

Always Have the Best Equipment for the Job

By renting from our fleet

We deliver forklifts, attachments, carton clamps, rotators, fork extensions, and more, right to your facility. Our machines are late models with low hours and well maintained. Ask about discounts on longer term rentals!
