

Why Nutrablend Foods works with JIT

It's how they save time, money and headaches

Bridget Brehm is the Director of Operations at Nutrablend Foods. She answered our questions to tell us what they like most about working with JIT.

"You can't beat the prices or customer service that JIT provides. We currently rent forklifts from them because they offer us great deals, and they are very attentive. Compared to other dealers we've worked with, JIT is more responsive and always answers our questions in a timely manner. The billing process has also been smooth, and the equipment we've rented has been reliable and able to complete the job we needed it to complete."

Purchasing forklifts made simple

"Because their rental operation has been so smooth, we are currently in the quoting process to purchase a new forklift from JIT. They have been very helpful in asking about our needs and suggesting the best options to meet them. Plus, they've continued to be highly responsive, which is great, because I don't have time in my day to chase people down or ask 3,000 times for something. They've been great."

—Bridget Brehm
